Bakers' Marks

There is a story of an old lady who made up a batch of mince and apple pies.

Wishing to be able to distinguish one kind from the other she marked the mince pies **T M** for "tis mince" and the apple pies **T M** for "taint mince."

The baker's marks on the ordinary run of bakery products are of little more value for purposes of identification than the marks on the old lady's pies.

But HERE is a trade mark that really identifies—

that enables you to distinguish the world's best baking—the Biscuit, Crackers, and Wafers made by the NATIONAL BISCUIT COMPANY. This trade mark appearing in red and white on each end of a package guarantees the contents to be of highest quality—pure, clean and fresh. To learn something of what this trade mark means

try a package of either of the products mentioned below.

Lemon Snaps

An appetizing nibble with the flavor of the refreshing lemon. A revelation in modern baking.

Butter Thin Biscuit

Unique little biscuit, in much favor with those who want "something different."

Graham Crackers

Possessing the rich, nutty flavor of graham flour—unlike any graham crackers you ever tasted.

Nashville, Tenn., July 7.—For the third time during the past ten days this city has been visited by a serious fire.

The adjoining buildings occupied by H. G. Lipscomb & Co. and the Cheek & Neal coffee company were damaged by water. It is not known how the fire originated but incendiarism is strongly suspected.

George Rogers, a substitute fireman, fell four stories through an elevator shaft and was so badly injured that he will die.

The loss on the stock of Phillips, Webb & Co. is \$135,000, and is fully covered by insurance.
